

LOGISTICS

AT THE MANCHESTER COLLEGE

tmc.ac.uk/logistics

ABOUT

Look around you – almost everything you can see has only reached you thanks to logistics, from your phone at the side of you and the chair you’re sitting on, to the clothes you’re wearing and the food in your fridge.

Think about the last music festival you went to. How did the food, drinks, stage and toilets get there? The answer is the logistics industry.

Logistics is about moving things (and people) around the UK and the rest of the world, and storing them when necessary. Logistics is not just about trucks; the sector includes trains, buses, aeroplanes, ships and warehouses.

There are a huge number of careers in logistics, many of which involve working as part of a close-knit team in a fast-paced, dynamic environment. In fact, one in 12 adults is employed by the logistics industry.

Whether you fancy a career with Eddie Stobart, Royal Mail, DHL, Amazon or any one of the other thousands of companies working in this sector, a Logistics qualification at The Manchester College can help you to get there.

The Manchester College is one of the few education providers in the North West to be approved by The Chartered Institute of Logistics and Transport. We’ve worked hard to ensure that our courses are industry-relevant. You’ll be taught by someone who’s worked in the sector so you’ll know that they have a real interest in the industry, as well as crucial insider knowledge.

Classes are held in a bright modern campus, where you’ll be using state-of-the-art equipment. If driving is part of your course, you’ll be taught in one of the College’s own industry-standard training vehicles. And you won’t only be practising your new skills on campus, as you’ll also benefit from vital work experience thanks to our links to local employers.

So, if you want to gain a qualification in a subject that’s crucial to almost every business in the UK, Logistics could be just what you’re looking for.

PROGRAMMES OF STUDY

We offer a wide range of courses for adults aged 19+ designed to allow you to upskill, start a new career or progress your career in areas such as warehousing, taxi driving, LGV driving, procurement and supply.

LEVEL 1 TAXI KNOWLEDGE WYTHENSHAW

As a taxi driver, you could earn good money and work the hours that suit you. Our Taxi and Private Hire course can help to prepare you for the Manchester City Council knowledge test. You can learn two days a week over 14 weeks, or three days a week over nine weeks.

You'll learn how to navigate your way around Manchester (the programme includes details of more than 2,000 locations in and around the city centre), as well as exploring issues such as safeguarding, motorway networks, legislation and local byelaws.

You'll also go on visualisation walking tours of the city with your tutor to help you to memorise road networks and useful landmarks. Once you've finished the course, you should have the knowledge and skills to take the Manchester City Council test with confidence.

NVQ LEVEL 2 ROAD PASSENGER VEHICLE DRIVING (TAXI AND PRIVATE HIRE) WYTHENSHAW

This is a short course followed by an in-car driving assessment. When you pass, you'll have gained a qualification that's recognised by Local Licensing Councils, so you'll be allowed to work as a private hire or taxi driver in Greater Manchester and other areas.

Before joining this course, you'll meet with a member of the team to discuss your suitability. No formal qualifications are necessary, but you must hold a valid Hackney Carriage or Private Hire Licence and have access to an appropriate vehicle.

LEVEL 1 LGV DRIVER TRAINING

As a professional LGV driver, you will have the potential to earn good money and have excellent opportunities to be involved in one of the fastest growing sectors in the world. This course will provide you with the opportunity to gain your LGV Category C licence.

You will gain your Theory and Hazard Perception MOD1, a real-life scenario online test MOD2, Practical Driving test MOD3 and 'Show me Tell me' about the vehicle MOD4.

Completing your training will enable you to drive a range of large commercial vehicles, from distribution lorries to tipper trucks and bin lorries. Best of all, you will have access to an industry that now has tens of thousands of jobs available throughout the United Kingdom and globally.

LEVEL 1 WAREHOUSE COURSE

Once you have completed this course, you will have the opportunity to be involved in a sector that is continuing to grow.

Completing your training will enable you to work in a range of different warehouse environments including retail, wholesale and manufacturing. The opportunities within this sector are endless.

The course will be delivered online using face-to-face meetings and providing you with the opportunity to understand different types of warehouses and distribution centres, Health and Safety in warehousing, pick and pack and lots more.

NEW FORK LIFT TRUCK (FLT) TRAINING COURSE

The Manchester College will help you become a professional Fork Lift Truck (FLT) driver and gain a certificate.

Completing your training will enable you to drive a Counterbalance Forklift Truck. The duration of the course is two weeks, in which you will develop many skills to assist you in your future career. Best of all, you will have access to an industry that now has tens of thousands of jobs available throughout the United Kingdom.

The college will work with you to develop your career in an industry that you will always have opportunities for work. With this training and the LANTRA certification, you can be amazing anywhere!

**CIPS LEVEL 2 CERTIFICATE
IN PROCUREMENT AND
SUPPLY**

Do you want a successful career in procurement and supply but lack business experience or qualifications? This course can help you to gain the skills and knowledge you need, gain a recognised qualification and strengthen your CV.

You'll be looking at procedures and processes, as well as areas such as stakeholder relations, systems technology and inventory, logistics and expediting. By the end of this course, you'll have a much better chance of landing your dream job or progressing to a Level 3 course.

**CIPS LEVEL 3 ADVANCED
CERTIFICATE IN
PROCUREMENT AND
SUPPLY**

Whether you're already working in procurement and supply or you're looking for a career change, this Level 3 CIPS Advanced Certificate in Procurement and Supply course can help you to get where you want to go.

You'll learn how to apply factual, procedural and theoretical knowledge of procurement and supply. You'll also undertake a range of complex tasks and put your problem solving skills to the test. By the time you pass, you'll have a much greater understanding of how to interpret data and how to help a company's procurement and supply department run smoothly and efficiently.

**CIPS LEVEL 4 DIPLOMA
IN PROCUREMENT AND
SUPPLY**

The Level 4 CIPS Diploma in Procurement and Supply course is the next step towards a successful career in this dynamic sector.

As part of the course, we'll look at various scenarios to help you develop the skills you need to address complex, non-routine problems. We'll also look at differing perspectives and approaches within the profession.

By the time you complete the course, you'll be able to analyse, interpret and evaluate relevant information and ideas, and review the effectiveness of different methods. You'll also have gained a range of other practical, theoretical and technical skills, which you can start using straight away to improve procurement and supply processes in your own workplace.

**CIPS LEVEL 5
ADVANCED DIPLOMA
IN PROCUREMENT AND
SUPPLY**

Our Level 5 Advanced Diploma in Procurement and Supply is based on the managerial and professional levels of the CIPS Global Standard. It will help you to upskill, grow in confidence and improve processes within your organisation.

You'll work through a range of practical, work-related tasks, focusing on mitigating key risks in supply chains. You'll also learn to process and evaluate contracts, including considering the impact of legal implications and non-conformance. Once you've achieved your qualification, you'll have a better chance of gaining a managerial position in procurement and supply.

**CIPS LEVEL 6
PROFESSIONAL DIPLOMA
IN PROCUREMENT AND
SUPPLY**

Our Level 6 Professional Diploma in Procurement and Supply is the final stage of your journey to becoming MCIPS. It's based on the professional level of CIPS Global Standard, and builds on the knowledge and skills you learned in the Level 5 course.

This qualification could make a real impact on your career. It's recognised by employers worldwide and having it sets you apart as a competent and confident procurement and supply professional, who is capable of guiding and leading their organisation to sustainable success.

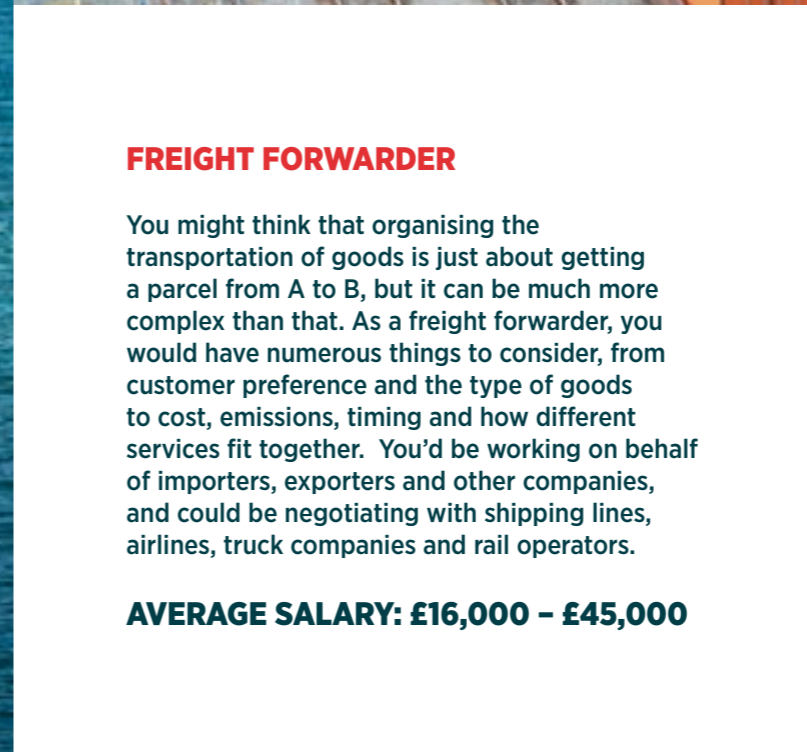

TRANSPORT PLANNER

As a transport planner, you'd be helping people to get where they want to go quicker, easier and safer. You could develop strategies and play a key role in making improvements to everything from roads, railways and bus routes, to cycle routes and footpaths. And this role isn't just about improving journeys for people; you'd also be considering aspects like air quality, costs, climate change and efficiency.

AVERAGE SALARY: £20,000 - 40,000

CAREERS

FREIGHT FORWARDER

You might think that organising the transportation of goods is just about getting a parcel from A to B, but it can be much more complex than that. As a freight forwarder, you would have numerous things to consider, from customer preference and the type of goods to cost, emissions, timing and how different services fit together. You'd be working on behalf of importers, exporters and other companies, and could be negotiating with shipping lines, airlines, truck companies and rail operators.

AVERAGE SALARY: £16,000 - £45,000

LOGISTICS AND DISTRIBUTION MANAGER

As a logistics and distribution manager, you could be organising the storage and distribution of anything from washing machines to supercars. You might be working in areas such as stock control, warehousing and transport. You'd probably need to liaise with a range of companies, such as suppliers, freight forwarders and retailers, so good communication and organisation skills would be an advantage.

AVERAGE SALARY: £25,000

MEET THE TEAM

When you study Logistics at The Manchester College, you'll learn from experienced tutors who have worked out in the sector. So, you'll know that you're learning the actual skills that real employers are looking for.

AYUB MOOSA
HEAD OF DEPARTMENT

Ayub took over as Head of Automotive in October 2016 and has recently become Head of Logistics. He possesses 12 years' management experience in the automotive industry and specialises in German engineering including for Volkswagen and BMW. Ayub is also an MOT tester for VOSA DVSA and maintains close ties to the automotive industry.

He has a particular interest in helping students, whatever their age, to find a job they love in the automotive or logistics sector. With this aim in mind, he makes sure that our courses meet the requirements of local and national employers. He works closely with companies to identify skills gaps, which our courses can then fill, and has also built an automotive hub in Lancashire to identify local talent.

JOHN CLEARY
TUTOR

John joined The Manchester College in 2006, bringing with him an abundance of experience in logistics, primarily in the taxi sector. Highlights of his career include playing an instrumental role in overhauling the taxi knowledge process for Manchester City Council.

His 30+ years of experience make John a real asset to the department and he's supported thousands of students to pass their taxi knowledge exam. John has a degree in Business Studies, as well as a PGCE teaching qualification.

DARREN O'LEARY
TUTOR

Darren has been at The Manchester College for six years and now teaches numerous courses, including Freight Forwarding. He worked as a private hire driver for almost 30 years and also spent time as a prison counsellor and drug and alcohol worker for the NHS.

Darren's experiences mean that he particularly enjoys supporting students who have previously struggled to find employment. Every single person that Darren has helped to obtain an LGV licence has gone on to achieve a full-time job.

JOHN VELLA
TUTOR

John joined The Manchester College in May 2017 and possesses over 25 years of experience in the IT sector, working for blue chip companies such as IBM, Dell and Deloitte and Touche.

He has a BSc (Hons) in IT and PGCE teaching qualification and delivers Functional Skills to learners on our Taxi, LGV and Forklift Truck courses.

SIMON KERFOOT
TUTOR

Simon has more than 30 years' experience in the transport and distribution sector and has held a variety of roles, including transport manager and company director. He now enjoys sharing his extensive industry knowledge with students at The Manchester College.

Simon specialises in teaching LGV and forklift truck courses. He holds several recognised qualifications and certifications, as well as being a member of the Chartered Institute of Logistics and Transport (CILT).

LOCATION

We believe practical experience is crucial when it comes to learning about logistics. So, when you enrol on one of our Logistics courses, you'll benefit from industry-standard training vehicles, specialist software and other sector-specific tools. You'll also be learning in state-of-the-art, modern facilities.

WYTHENSHAW CAMPUS
BROWNLEY ROAD
WYTHENSHAW
MANCHESTER
M22 9UH

BUILDING EXCELLENCE

We are currently investing £140m in upgrading our existing campuses and building new facilities, including a brand-new campus in the city centre.

This exciting investment will enable us to provide you and future generations of students with state-of-the-art, industry standard facilities that will mirror the world of work, providing the perfect setting to help prepare you for a future career.

Our Logistics department has benefited directly from this investment, with new and improved facilities at our Wythenshawe campus including:

- The installation of large roller shutter doors to accommodate large HGV vehicles
- A brand new mezzanine area for classroom based learning
- New mechanical and electrical services installations which provide specialist ventilation, lighting, power and data.

These amazing new facilities will provide you with access to everything you will see once you enter the workforce, giving you the best possible chance to prepare for a future career.
