

## Student Work Experience Insights

Natasha completed an Industry Placement with our employer partners at Each Step Care Home and has shared her experiences:

### **What new skills did you develop during your industry placement?**

- During the industry placement I have learnt a good knowledge of dementia
- I have improved in filling all documentation for the patients in the home
- I have learnt how to provide care in changing patients, giving general care and hygiene.

### **What was the best part of your industry placement?**

- The best part of the placement was definitely communicating with the residents, being able to do activities and help them to engage and feel better emotionally throughout the day

### **What career are you aiming for and how has your industry placement helped?**

- I would like to pursue a career in adult social care, the placement has helped me to make this decision and realise that this is the correct career for me.

### **What advice would you give to other students going on an industry placement?**

- I would advise students going on placement to 'put in their all' and get involved in as much as they can.

Work Experience and employability skills will form a big part of your student journey when you join The Manchester College. Each week you will attend Employability Hour as part of your time-table, during which you will develop employability skills.

All students will have the opportunity to take part in work experience with one of our fantastic employer partners. Any work experience will be directly related to college studies and future career aims.

Visit our website [www.tmc.ac.uk](http://www.tmc.ac.uk) and find out more about our courses to help you achieve your career goals.
