PRE-ENROLMENT RESOURCE PACK

Bricklaying

Brickwork Diploma Study sheets

Please bring the completed sheets with you in September and hand them in to your Tutor.

Additionally could you please research the role of a Bricklayer and write down what daily operations the role involves.

We look forward to meeting you in September.

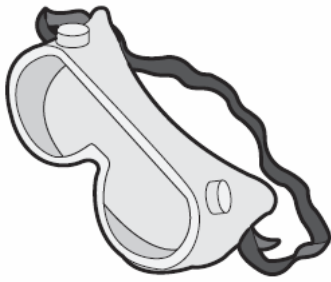

The Hard Hat: What is it used for? Why would you use it?

Knee Pads: What is the benefit in wearing this PPE?

Steel Toe Capped boots: Why should you where these boots on a construction site?

Safety Goggles: Why is it important to wear this type of PPE?

Gloves with staples

Gloves: What are they used for? Why would you use them?

COSHH Symbols

Can you write what these symbols are warning you about?

Health risk

To skin = SK Of irritant to eyes, nose and throat = ENT
By inhalation = IN Of ingestion or swallowing = SW

Substance	Risk	Jobs	Controls
Dusts			
Cement Gypsum Silica	SK IN ENT SK IN ENT	Drilling or cutting, Brickwork, rendering Plastering Sand blasting, grit blasting	Prevent spread, use protective clothing, dust mask and respirator. Washing facilities, barrier creams. Minimise handling, use eye protection, respirators, gloves.
Wood dust Mixed dusts	IN SK ENT IN SK ENT	Use of power tools in carpentry, especially sanding and machining of timber	Minimise dust generation, use dust extraction, dust bags, dust masks, respirators and washing facilities.

What PPE is needed for these substances? What could be done to prevent risk?

What does COSHH stand for?
